Pregnant & Postpartum  
Services

## **ECM: Pregnancy & Postpartum Services**

---

Enhanced Care Management (ECM) focusing on Pregnant and Postpartum women specializes in healthcare services designed to optimize the care and outcomes for pregnant women and new mothers.

We aim to improve outcomes for both mother and baby by providing comprehensive, personalized, and supportive healthcare throughout the perinatal period, up to 12 months after giving birth.

## **Services We Provide**

---

- Comprehensive Care Management
- Personalized Care Plans
- Education and Support
- Integration of Services
- Health Promotion
- Comprehensive Transitional Care
- Individual and Family Support Services
- Referrals to Community Supports
- Transition to Postpartum Care

## **Eligibility Criteria**

---

- Must be an active Medi-Cal member.
- Must be pregnant or postpartum, within 12 months of delivery.

Eligible applicants must also:

- Be eligible for another Enhanced Care Management Program, or
- Be subject to racial and ethnic disparities.

## **What is ECM?**

---

Enhanced Care Management (ECM) - Birth Equity Program helps pregnant and postpartum women to coordinate both the clinical and non-clinical aspects of care for Medi-Cal members with the highest need.

This program also aims to serve as a cost-effective alternative to Medi-Cal services.
